

Haiti Ministry

- **Major Projects**

- **School Lunch Program-** Fr. Isaac's main priority is to provide the secondary students with lunches for the school year. The Haiti Ministry, with the generous support of the Sacred Heart Parishioners, worked with Fr. Isaac to implement the School Lunch Program for the 2015-2016 school year. This was the first year the secondary students had lunch in a very long time. Fr. Isaac was able to find donations for the primary students, but was unable to secure food for the secondary students until this past year. With the continued support of our parishioners, the Haiti Ministry is able to provide food for the secondary students next year also. As well as providing food for the students which helps them succeed in school, Fr. Isaac employs two women to cook the meals, helping to support the local economy.

- **Sea Container Shipment**- The PTPA organization offers participating parishes the opportunity to ship items to their twinning parishes in Haiti. This year, Sacred Heart parishioners donated enough to ship 44 boxes of supplies to Fr. Isaac. Items included hygiene items, over the counter drugs, school supplies and food items. These items will be used in the rectory as well as the school.

- **Major Projects Continued**

- **Computer Lab** - Through the persistent efforts of one generous Sacred Heart parishioner, the Haiti Ministry was able to acquire 20 laptops. Fr. Isaac's second priority was to setup a computer lab for the students. Working with the World Computer Exchange, the Haiti Ministry was able to have educational software installed in French and tailored specifically for Haitian education. As part of the Sacred Heart Teens Haitian Mission trip, the teens setup the computers in the lab as well as demonstrated the software.

- **New Truck-** Fr. Isaac applied for a new truck through the non-profit Adveniat three years ago. This year he was approved to get one! Although most of the truck was free, Fr. Isaac had to pay for shipping charges. Through our partnership, Sacred Heart was able to help Fr. Isaac raise the funds he needed.
